

LUXOMAT® PD4-S-GH-SM

Suitably for high-bay storages

SM

TECHNICAL DATA

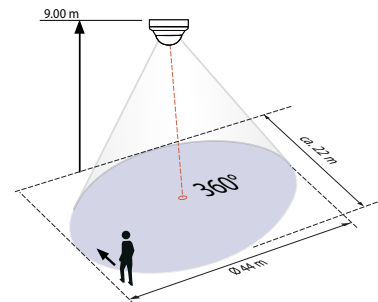

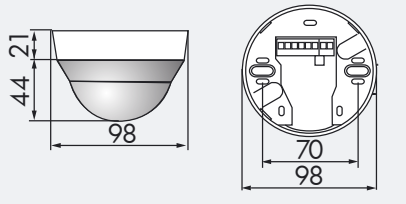

- 230V~ ±10%
- 360°
- across Ø 44.00 m
- SM = IP20 / Class II / CE
- SM Ø98 x H65 mm
- 25°C to +50°C
- Housing UV- and shock-resistant Polycarbonate

Slave output

- 230V

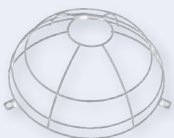

PRODUCT INFORMATION

- Occupancy detector LUXOMAT® PD4-S-GH, Slave with oval and large detection area, for surface mounting
- Great energy-saving potential, particularly in large rooms and when monitoring large areas
- One master occupancy detector is necessary for controlling light and heating
- Motion can be detected in all room segments using Slave
- When a movement is detected, the Slave transmits an impulse to the master
- The movement is detected independently of light level
- There are no adjustment elements
- Sensor and power supply in a single housing
- **Typical applications:** monitoring of warehouses, high-bay storages, wherever at a great mounting height is necessary

ACCESSORY (OPTIONAL)

Wire basket

Socket IP54
